
Mr. Gonzalo M.

Computer Engineering.

FORMATION

Universidad de León, León - *Computer Engineering*

September 2015 - June 2019

Bachelor focused at the beginning in the most basic parts of computer engineering, being able to specialize at the end in a specific branch (Artificial Intelligence)

Amazon Web Services, Online - *AWS Certified Solutions Architect*

January 2019

Certification that accredits plenty of knowledge of AWS technologies and how to use them correctly in a solutions architect role.

WORK EXPERIENCE

Drotium, León - *Neural Network Developer*

September 2018 - January 2019

Function:

Working in a team with the goal of developing a Neural Network which evolve with a Genetic Algorithm, in a company focused in autonomous vehicles, that learns how to drive a vehicle in a non-human drivers environment, with all the vehicles interconnected between them.

SKILLS

Flexibility, teamwork, positivism, dedication and confidence.

Languages:

- Spanish: Native
- English: High

Computer Skills:

- As a computer engineer, I perform very well in all user-level tasks.
- Office, Photoshop, Video Editing, 3D Design (Medium)

INTERESTS & TECHNOLOGIES

Developer technologies:

- Java, C, Python, HTML, CSS, JavaScript, jQuery, Ajax, Bootstrap, PHP, SQL.

Cloud Computing.

Artificial Intelligence:

- Machine Learning, Big Data, Genetic Algorithms, Neural Networks.

Internet Of Things:

- Arduino, Raspberry pi.
